

New Environmental Business through Alliances

■ In collaboration with OMRON Corporation, “Energy Visualization Solutions,” a service for corporate customers using the NGN, is planned for launch in the six months ending September 30, 2010

NTT West

- A secure, inexpensive flat-rate network, “FLET’S Hikari Next”
- Strength in marketing directed towards the corporate market

OMRON Corporation

- Advanced “sensing and control” technology
- Total support know-how, from consulting for introduction of eco-friendly management to maintenance and inspection

Utilize the strengths of both companies in environmental/green energy field

Energy Visualization Solutions

Contribution to low-carbon society
