

- Resolution of labor shortages and improvement of productivity by upgrading manufacturing sites through remote monitoring, etc. by utilizing local 5G (Collaboration agreement with Yamaguchi Prefecture and joint experimental agreement with Hibiki Seiki Co., Ltd., April 23, 2020)
- Going forward, we will proactively expand the use cases of smart factories such as remote control to other fields and contribute to solving social issues in a new remote society.

**Providing new value by utilizing the characteristics of local 5G in a new lifestyle**
